Among El Paso's best known and largest business institutions is HEID BROS., Inc. Every body in the entire Southwest knows Heid Bros., Inc. Each year this concern deals in thousands of dollars worth of hay, grain, fuel and building material. All kinds of feed are handled, and Cerillos lump coal, Colorado coal, Anthracite coal, pine, cedar, oak and mesquite wood, pine kindling, oak and mesquite chunks for fire places, etc.

The plant and yards of Heid Bros., Inc. on Texas street are large and modern, fully equipped to take care of the large volume of business which is dealt in. A firm of such magnitude is a great asset to any city, employing many people and spending a great volume of money in the city each and every year. And sometimes in kicking about the high cost of living, coal, wood and feed included, we do not take into consideration the enormous cost of conducting such a business, and do not see the small margins of profit which are operated upon.

Here is a firm that has been eminently successful. And that means that it has been

eminently fair and honest in dealing with the public. Success comes only with the right kind of dealing. And no business could be built to the size of this one without the proper kind of management and proper methods of thinking and planning—planning to give every patron the full value of every dollar spent with the institution.

Have you ever waited till a real cold snap came along before thinking about the fact that the basement was just about bare of coal and kindling? And have you ever figured how many other people did that very same thing on that very same day? Well, all of you phoned right in to the fuel company to rush out that order for coal, wood and kindling. The problem of the fuel company is then to take care of all as fast as possible, which is "some" job. But nine times out of ten, the company did the thing up in good shape for you.

Remember that the phone number of Heid Bros., Inc., is 36, and you will get service, quality and your money's worth.
